

AFTER SCHOOL CLUB POLICY

Selwyn has a variety of after school programs that are offered to parents. Most of these programs are directed by outside vendors and parents pay for the cost of the program. Examples include:

- French, German, Mandarin language lessons
- Mad Science
- TGA Golf

1. These programs, while beneficial to Selwyn students and parents, are not PTA sponsored programs and therefore are not PTA funded. As a general rule, communications should be handled by the company running the program directly to the parents or through the CMS electronic file distribution, PeachJar.
2. As a general rule, all charges and finances for these programs should be handled by the company running the program. If there is a specific need for PTA involvement in communications and finances due to parental coordination, it should be minimized as much as possible.
3. Programs that are directed and led by Selwyn parents and/or teachers can be PTA sponsored and/or funded. Examples include: Chess Club
4. Selwyn PTA will only consider sponsoring and/or funding an after school activity if it is academic in nature and/or if the group represents Selwyn at tournaments or other events.
