

BINGO

Welcome to the Summer learning BINGO challenge! Mark off the squares as you complete the activities. Aim to complete a row, column, or diagonal to win.

Send a postcard to a friend.	Go on a hike and count all the animals and plants you see.	Write, or record a review of your favorite book.	Practice addition and subtraction with flashcards or online math games.	Listen to an audiobook.
Research a place to visit and write the sights you should see.	Read a book of poetry.	Select a chapter book to read aloud with a relative.	Swap a book with a friend and compare your impressions.	Write and illustrate your own short story.
Write and illustrate your day in a journal.	Ask a relative to teach you their favorite recipe, using math to measure!	Ditch the screens and have a family game night.	Create and solve your own word problems using everyday situations.	Find a book on constellations and do your own star gazing.
Read a book to a younger sibling, friend, or stuffed animal.	Build a fort or create a reading nook.	Create a comic strip based on a favorite book or story.	Create a list of new words you noticed during reading and look up their definitions.	Write your own poem about a favorite topic or place.
Measure and record the height of different objects in the house.	Find a book about an artist or inventor. Make your own creation!	Visit your local library.	Set a summer goal, plan steps, and track progress.	Write one of your teachers a letter about your summer or a favorite memory.
